

IMMEDIATE RELEASE  
 SALINAS METROPOLITAN STATISTICAL AREA (MSA)  
**(Monterey County)**

The unemployment rate in the Monterey County was 5.6 percent in July 2017, up from a revised 5.5 percent in June 2017, and below the year-ago estimate of 5.9 percent. This compares with an unadjusted unemployment rate of 5.4 percent for California and 4.6 percent for the nation during the same period.

CDP is "Census Designated Place" - a recognized community that was unincorporated at the time of the 2011-2015 5-Year American Community Survey (ACS).

**Notes:**

- 1) Data may not add due to rounding. All unemployment rates shown are calculated on unrounded data.
- 2) These data are not seasonally adjusted.

**Methodology:**

### Data Not Seasonally Adjusted

<b>Area Name</b>	<b>Labor Force</b>	<b>Employment</b>	<b>Unemployment Number</b>	<b>Unemployment Rate</b>	<b>Census Ratios Emp</b>	<b>Unemp</b>
------------------	--------------------	-------------------	----------------------------	--------------------------	--------------------------	--------------

Monthly city labor force data are derived by multiplying current estimates of county employment and unemployment by the relative employment and unemployment shares (ratios) of each city at the time of the 2009-2013 American Community Survey. Ratios for cities were developed from special tabulations based on ACS employment, unemployment, and population and Census population from the Bureau of Labor Statistics. For smaller cities and CDPs, ratios were calculated from published census data.

Monthly CDP's labor force data are derived by multiplying current estimates of county employment and unemployment by the relative employment and unemployment shares (ratios) of each CDP at the time of the 2011-2015 ACS survey. Ratios for CDPs' were developed from special tabulations based on ACS employment and unemployment from the Bureau of Labor Statistics.

This method assumes that the rates of change in employment and unemployment since the 2009-2013/2011-2015 American Community Survey are exactly the same in each city and CDP as at county level (i.e., that the shares are still accurate). If this assumption is not true for a specific city or CDP, then the estimates for that area may not represent the current economic conditions. Since this assumption is untested, caution should be employed when using these data.
